Author of the proposal:

Gael Guennebaud (gael.guennebaud@inria.fr)

Title of the proposal:

Reconstruction for Archeology

Scientific context

One postdoc position is available to work on surface reconstruction related topics such as online reconstruction, reconstruction from point clouds with non-oriented normals, proper extraction and meshing of sharp features, etc. The precise research topic will depend on the candidate's skills and motivations. This postdoc is part of the "Search" project which includes the archeologists in charge of the Pharos of Alexandria.

Duration

Up to 15 months
